

Client Case Study

“The HomeBuyer
Angels”

You Choose It,
We Buy It, You
Own It!!!®

For Lisa and Dan, the most appealing aspect of the Home-buyer Angels lease purchase program was that they were able to choose the exact property that suited their needs. They required a spacious home to accommodate their furnishings and anticipated starting a family soon. At the time, their credit situation prevented them from obtaining a mortgage of any kind. Lisa and Dan found an awesome duplex in just three weeks and realized their dream of purchasing their own home 18 months later. “The monthly payment was well within our budget and the savings match program helped as well. Overall, the program helped us realize some very important personal and financial goals.”
